Be careful what you listen to, Mister DJ, be careful of the vibes u spread. Lets change this stupid philosophy before anything really bad happens. And Jah knows, mankind is capable of so much atrocity. Like Bob Marley sang: Whats wrong with you my brother, puss and dogs they get together, whats wrong with loving one another?

More recently,I am reminded of the Rwanda genocide in 1994,whr millions of Hutus dced to eliminate the other ethnic groups. 800 000 Tutsis were killed in the space of 4months, with guns and machetes. This was sponsored with hate messages broadcasted on national radio by a bunch of Hutu rebels (see the movie Hotel Rwanda for an adaptation of this conflict). I can still hear the message, on the radio saying we must kill the cockroaches. Sounds similar to bun out the chi chi, doesnt it?

Whn I look at history, this kind of hate propaganda reminds me of the KKK:whites dced to get rid of the African descendants. Whn I look at history,I am reminded of the Holocaust:Hitler wanted to create a perfect race and eleminate the Jews.
