i love this song and hate it at the same time! hot song and beat, but it's talking about burning gay men down! they used to play this at the gay clubs until somebody finally told the dj what it really says lol

Until the philosophy which hold one race
Superior and another inferior
Is finally and permanently discredited and abandoned
Everywhere is war, me say war

That until there are no longer first class
And second class citizens of any nation
Until the colour of a man's skin
Is of no more significance than the colour of his eyes
Me say war

That until the basic human rights are equally
Guaranteed to all, without regard to race
Dis a war

Lyrics are from halle Selassie first point.
Second point, man to man is so unjust, makes reference to
violence not to sex.
I'm no longer surprised by your deep and obnoxious ignorance.
Monky man is also a reggae song.. .haven't you got any personal
meaning of it..
I guess one clearly...
